School of Medicine

BIOMEDICAL
Graduate Education

March 27, 2026

Dear Shanelle,

Congratulations! On the recommendation of the Admissions Committee, I am pleased to approve your admission to the M.S. in Health Informatics and Data Science program for the Fall 2026 Semester. We believe that your experiences, preparation, and aspirations will make you a distinct and valued part of our rigorous learning community - one where we believe you will thrive.

Biomedical Graduate Education at Georgetown University School of Medicine is dedicated to equipping students with exceptional academic training, research experience and career preparation. We welcome learners from many backgrounds to make discoveries and advance human health in programs across our focus areas: interdisciplinary sciences, data science, pre-health, and industry.

As a newly admitted student, you will have access to the GUExperience portal using your assigned Georgetown ID and credentials. You can locate information about your Georgetown ID and credentials in your [Application Status Portal](#) under the Enrollment Information section.

To accept your offer of admission, please return to your [Application Status Portal](#) and submit the enrollment reply form by **April 15, 2026**. A **\$500** non-refundable deposit is required by this date in order to ensure your place in the program.

Your admission is conditional upon receipt of the official transcripts marked as awaiting on the checklist in your application status portal. The deadline to submit these official transcripts is **July 1, 2026**. If there are additional programmatic conditions of admission, you will be notified by your program. For any inquiries regarding your admitted program, please contact your program [directly](#).

Congratulations on your admissions once again, Shanelle! We look forward to working with you to fulfill your educational and professional objectives. Welcome to Georgetown!

Sincerely,

Anna Tate Riegel, Ph.D.

Vice Dean for Biomedical Graduate Education, Georgetown University School of Medicine
Vice President for Research, Georgetown University Medical Center
Cecilia Fisher Rudman Professor, Department of Oncology and Pharmacology
